

1v1v1v1 Game

HOW IT WORKS...

This is a 1v1v1v1 (plus optional GKs) game

The winner is the first player to steal 1 cone from all the other 3 players

A player steals a cone if they score in another player's goal (e.g. if the blue player scores in the red goal they steal a red cone and place it in the back of their own goal – the blue player now needs a yellow and green cone – they do not get another red cone)

Allow a time-out after each goal so players can discuss tactics with their GK

In this game you can lose all three of your cones and still win the game

It can also be in the players' interest to defend other player's goals – as a goal in that goal may result in another player winning
Be patient as it can take players a while to work out the previous two bullet points!

OPTIONS, PROGRESSIONS & VARIATIONS

Play without GKs

Play as a 2v2v2v2 (with or without GKs)

Different Version

Players are eliminated when they lose all their cones. Players may work together (or pretend to!)

This version will end in a 1 v 1 final
